

SAFETY DATA SHEET

Section 1. Identification

Product identifier: SXT Product Family (3.0, 3.0 Max, 3.0 Lite, Baja Max, Baja, Slime, Smoke)

Other means of identification: Not available

Supplier's details:

JB Products of West Michigan LLC

3536 Roger B Chaffee Grand Rapids, MI 49548

Emergency Phone Numbers: 1-941-306-9752

Section 2. Hazards Identification

OSHA/HCS status: This material is considered hazardous by (OSHA Hazardous Communication Standard (CFR 1910.1200)

Classification of mixture: Aspiration Hazard Category 1

Physical: not classified

Health: Skin irritation category 3

Serious Eye damage/irritation category

Carcinogenicity category 3

Specific target organ toxicity

Repeated exposure oral: Not Available

Environmental:

Not Classified as dangerous

Not Available

GHS label elements:

Signal word: DANGER!

Hazard statements: H304-May be fatal if swallowed and enters airways

Precautionary statements:

IF SWALLOWED: Call a POISON CENTER or doctor if you feel unwell. Do not induce vomiting.

If on skin: Wash with plenty of soap and water. If irritation persists get medical attention.

Storage: Store locked up.

Disposal: Dispose of contents and container in approved waste disposal plant

Section 3. Composition/information on Ingredients

Substance/mixture: Mixture

Ingredient name:

Distillates Hydro-treated C12-16 15-75 % CAS No: 64672-47-8

Section 4. First aid measures

Eye contact: Flush with water for 15 minutes. Get medical attention.

Inhalation: If irritation is present move to fresh air.

Skin contact: Wash exposed area with mild soap and water. Remove Contaminated clothing.

Ingestion: Do not induce vomiting, seek immediate medical attention.

Most important symptoms/effects acute and delayed

Potential acute health effects

Eye contact: No known significant effects or critical hazards

Inhalation: No known significant effects or critical hazards

Skin contact: No known significant effects or critical hazards

Ingestion: May irritate mouth, throat, and stomach and be fatal if swallowed or enters airways

Over exposure signs/symptoms

Eye contact: Irritation, watering and redness

Inhalation: No specific data known

Skin contact: Irritation and redness

Ingestion: May cause nausea and vomiting

Section 5. Fire-fighting Measures

Suitable extinguishing media: Dry chemical, CO₂, water spray or foam. Do not use water jet.

Specific hazards arising from Chemical: May generate oxides of carbon.

Special protection and precautions for fire-fighters:

Fire-fighters should wear appropriate protection equipment and self contained breathing apparatus with full face-piece operated in positive pressure mode

Section 6. Accidental Release Measures

Personal protection equipment and Emergency procedures:

Wear non permeable clothing, rubber gloves, rubber boots, and splash goggles when in contact with spilled materials.

Methods and materials for containment and clean up:

Stop leak, if without risk. Prevent entry into sewer, water courses, basements, or confined areas.

Wash spills into treatment plant or perform the following: Contain the spillage with absorbent material: sand, earth, vermiculite or diatomaceous earth and place in container for disposal.

Dispose of in accordance with local regulations.

Section 7. Handling and Storage Precautions for Safe Handling

Protective measures:

Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Wear rubber gloves and splash goggles when handling this Product. Keep tightly closed when not in use.

General occupational hygiene:

Eating, drinking and smoking should not be allowed in areas where this product is handled, stored or used. Workers should wash hands and face before eating, drinking or smoking. Remove contaminated clothing and protective clothing before entering eating area.

Conditions for safe storage, including any incompatibilities:

Store in accordance with local regulations.

Store in original container.

Store in a cool dry place away from direct sunlight.

Section 8. Exposure controls/personal protection

Control parameters

Appropriate engineering controls:

Good ventilation should be sufficient to control worker exposure to airborne contaminants.

Individual protection measures

Hygiene measures:

Wash hands, forearms and face thoroughly after handling this product before eating, drinking, smoking or using the lavatory and at the end of the work day.

Wash contaminated clothing before reusing. Ensure eye wash stations and safety showers are close to the work location.

Eye and face protection:

Wear rubber gloves and splash goggles when handling this product.

Hand protection:

Wear chemical resistant impervious gloves.

Section 9 Physical and chemical properties

Physical state: Liquid

Color: Colorless

Odor: hydrocarbon

Odor threshold: NA

pH: NA

Melting point/freezing point: Flash point: 214 F / 101 C

Evaporation rate: NA

Lower and upper explosive (flammable) limit: NA

Relative density: 0.86-0.95

Partition coefficient: NA

n-octanol/water: NA

Auto-ignition temperature: 225 C

Decomposition temperature: NA

Viscosity: 5-25 CST

Section 10. Stability and reactivity

Reactivity: no specific test data available

Chemical Stability: Stable

Possibility of hazardous reaction: Under normal conditions reactions will not occur.

Conditions to avoid: Avoid all possible sources of ignition. Flammable in the presents of open flames, spark, and static discharge.

Incompatible materials: no specific test data available

Hazardous decomposition: Under normal conditions, hazardous decomposition will not occur.

Section 11. Toxicological information Information on toxicology effects

Acute toxicology: no specific test data available, not classified as dangerous

Irritation/corrosion: no specific test data available

Conclusion/summary: no specific test data available

Sensitization: no specific test data available

Mutagenicity: no specific test data available

Carcinogenicity: no specific test data available

Reproductive toxicity: no specific test data available

Developmental effect: no specific test data available

Numerical measures of toxicity: no specific test data available

Section 12. Ecological information

No specific data available

Section 13. Disposal considerations

Disposal of this product, solution and by-products should comply with local, state and federal laws.

Waste should not be disposed of untreated to sewer. Seek the assistance of a licensed waste disposal contractor.

Section 14. Transport information

Name: friction aid (NON-HAZARDOUS)

UN number: none

Transport class: none

Packing group: none

Section 15. Regulatory information

No additional information provided

Section 16 Other information

Preparation date:-2-27-19 Revision date:

Preparer: JAB
